OBJECTIVE

Motivated Computer Information Systems student eager to bring my programming talents to a summer 2027 internship. Looking for an environment that encourages growth and hands on technical work to build real solutions.

EDUCATION

University of South Carolina: Molinaroli College of Engineering and Computing

Columbia, SC

Bachelor of Science

May 2028

Major: Computer Information Systems | **Minor:** Business Information Management

Concentration: Artificial Intelligence | **GPA:** 3.7

Academic Awards: Presidents List (Multiple Recipient), Dean's List (Multiple Recipient)

SKILLS

Programming: Java, C++, JavaScript, Python, SQL, HTML5/CSS3, React, Node.js, Express.js, JSON

Dev Tools: VS Code, Cursor AI, Claude, GitHub, Render, Vercel, Lucidchart

Certifications: Anthropic AI Fluency: Framework & Foundations, Claude 101

Projects: www.tylerbould.com, github.com/TylerBouldin

Course Work: Software Engineering, Web Applications, Alg Design I & II, Unix & Linux, Computer Security

LEADERSHIP POSITIONS

Software Engineering Project

Columbia, SC

Full-Stack Developer & Scrum Team Member

January 2026 – May 2026

- Collaborated with a 5-person Scrum team to architect a full-stack Java application, participating in bi-weekly stand-ups and sprint planning to ensure consistent milestone delivery throughout the semester.
- Engineered an adaptive educational platform that enables undergraduate students to master various programming languages through adaptive skill-level assessments, custom problem sets, and guided plans to maximize growth.
- Designed comprehensive system architectures and data schemes using Lucidchart, maintaining codebase integrity through rigorous peer code reviews and version control via GitHub.

SC-Alpha Sigma Phi Epsilon

Columbia, SC

Career Readiness Program Cohort

January 2024 – Present

- Completed intensive 3-week Career Readiness Program, refining professional materials, strengthened public speaking skills by delivering to 50+ peers, developing behavioral interview strategies using the STAR method.
- Built professional network through strategic outreach to alumni and industry contacts, resulting in mentorship opportunities and heightened understanding of career pathways in cloud and software engineering.
- Evaluated and selected 50 new members out of a pool of 2500+ potential pnm's, applying structured criteria to identify candidates that aligned with chapter goals and standards.

PROFESSIONAL EXPERIENCE

Mister Kleen

Chantilly, VA

Specialty Technician

June 2025 – Present

- Supported operational across two high security federal complexes, supporting thousands of employees while pursuing a U.S. Government Secret Clearance.
- Adapted to varying daily assignments across multiple buildings, collaborating with each building's 15-person team to meet strict federal facility maintenance requirements.
- Demonstrated professionalism and integrity during 8-hour shifts in a high security U.S Government environment, adhering to conduct protocols including constant managerial oversight.

OTHER

Interests: Classic Rock – Grunge, Jet Skis, AI Tooling, Investing, Pickleball, Film, Supplements, Guitar

Clearances: In process of U.S Secret Government Clearance

Involvements: SC-Alpha Sigma Phi Epsilon, Association for Information System, GAMA
